

Universal Shoulder Arthroplasty System

The Symmetry Medical Universal Shoulder Arthroplasty System includes a complete set of instruments for retraction of shoulder soft tissues for open Bankhart repair, rotator cuff repair, total shoulder arthroplasty and trauma procedures.

BENEFITS

- Deltoid retractor uses a smaller blade to provide improved visualization.
- The “C” shape design of the Conjoined Tendon Retractor holds and protects the conjoined tendon better than right-angled retractors.
- Ergonomic Radel® R handles provide increased comfort and reduce slippage during surgery.
